DUTIES AND RESPONSIBILITIES: Serve as Senior Biologist for implementation of artificial production measures of the Council's Columbia Fish and Wildlife Program (Program). Performs the following duties; manages, coordinates, and provides technical oversight and leadership for BPA's implementation of recovery programs for Endangered Species Act listed anadromous and resident fish and lamprey. Provides technical leadership, staff level coordination, consultation, and technical guidance to non-biological Fish & Wildlife Project Managers (GS-12 and below), on anadromous fish propagation projects and programs including construction and operation of major fish production and acclimation facilities, supplementation programs, and captive breeding programs for threatened/endangered salmon species. Applies a broad and diversified knowledge of fishery resources to influence planning and administration of BPA's implementation of artificial production measures. Technically reviews Endangered Species Act Section 7 consultation documents, Environmental Impact Statements, and other technical documents for other Fish and Wildlife Project Managers' projects. Participates as needed with the Integrated Hatchery Operations Team. Participates in development of BPA positions for NMFS Biological Opinion for federal hatchery operations in the Columbia River Basin. Consults with senior Northwest Power Planning Council staff and the Independent Scientific Review Panel on artificial production issues, experimental captive broodstock technology issues, and BPA-funded artificial propagation and endangered and threatened salmon recovery programs involving captive breeding and supplementation. Manages design and construction of major anadromous fish production facilities, with independent technical decision-making authority over engineering design changes, construction change orders, and final acceptance of the facility. Leads, guides, coordinates, negotiates development of strategies for specific supplementation and production projects with the Council, regional fish and wildlife agencies, Indian Tribes, project operators, and other interest groups. Works with other regional players in a team approach for developing solutions to biological and policy issues. Incumbent is expected to understand and commit to Fish & Wildlife Subgroup and BPA policies and represent and support them assertively in Program implementation. Reviews, analyzes, and recommends BPA implementation activities or projects submitted by fish and wildlife agencies, Tribes, and other groups in relation to artificial and natural production in the Columbia River Basin. Provides biological expertise to properly scope and define needs and objective, statements of work, biological evaluation criteria, and any other pertinent technical information used to develop

procurement solicitations for fish and wildlife activities. Guides BPA to innovative, effective solutions for technical, tactical, or institutional impediments to Program implementation, which are acceptable to the Council, state, tribal, and federal fishery managers, project operators, utilities, and other interest groups. Serves as Contracting Officer's Technical Representative (COTR), when delegated authority by a Contracting Officer (CO). Negotiates technical matters. Monitors performance and compliance with the contract to ensure that Bonneville receives goods or services that conform to the technical requirements as set forth in the contract. Performs routine project management activities such as planning, scheduling, and budgeting. Prepares or assists in the preparation of expert testimony, position papers, issue papers, and other documents associated with fish and wildlife program activities. Employee may be required to operate a motor vehicle on an incidental basis.
